GAME DESCRIPTION

The "Raceway" device is a one or two player redemption device. The device is configured with two player stations, one on each side of the drag strip play field. Lights on the drag strip play field illuminate in sequence as if the light was moving down the drag strip toward the finish line. The player presses the "Skill Stop" button to stop the moving light. The object of the game is for the player to stop the light, on or as close to the finish line as possible. Prize values are displayed for each of the illuminated light. If the player stops the light on the finish line a progressive value is awarded. All awards are dispensed as tickets after each game to the player for prize redemption.
